

Business Exchange Services (BES)

Automotive Industry Experience

BES Automotive Industry Experience

- BES supports more than 1,750 clients and 135,000 trading partners globally
- Processes more than 3 billion transactions per year
- Supports more than 2,000 EDI translations (maps) for our automotive clients, including all common translations from/to Odette, VDA, EDIFACT, ANSI X.12, XML and others
- BES roots are in automotive EDI – we started in the 1980s with large EDI programs for GM (US) and GM Europe (Opel-Vauxhall-Saab)
- Automotive customers include GM, Volkswagen, SKF, NSK, Gates, Lear, Thomas Built Buses, Allison Transmission, Ally Bank and Affinia and many others
- Supports active EDI links to all major automotive OEMs and Tier-1 suppliers including:
 - OEMs:** GM, GM Europe, Holden, Ford, Chrysler, Peugeot, Citroen, Renault, Volkswagen, Audi, Porsche, Seat, Skoda, Volvo, Jaguar Land Rover, Nissan, Toyota, BMW, Ferrari, Fiat, Honda, Hyundai, Iveco, Isuzu, Man, MCC, Mitsubishi, Scania, DAF, KIA, Maserati, Caterpillar, CNH, Piaggio
 - Tier 1 Suppliers:** Delphi, Visteon, Lear, Bosch, Johnson Controls, Dana, Detroit Diesel, Eaton, Karmann, Textron, Denso, Magna, Magneti, Michelin, Motorola, NSK, PPG, Tenneco, Gates, ThyssenKrupp, Tyco, Valeo, Continental AG, ZF Friedrichshafen
.... and thousands more

BES Automotive Industry Experience

- The automotive industry faces significant challenges ranging from globalization and market volatility to excess capacity and declining margins, value chain complexities, competitive pressures, and changing consumer demands. DXC helps automotive companies meet those challenges by transforming how they manage their product and technology portfolios, interact with car buyers, achieve market differentiation, and accelerate downstream expansion.
- DXC has an excellent track record of delivering managed B2B services to automotive industry clients for the last 25 years. Specifically, we work with a number of Tier I and Tier II automotive customers, helping them with their EDI solutions in a managed service mode. We have the experience and understanding of the business and technology requirements of the automotive supply chain.
- DXC is deeply embedded in the automotive ecosystem and offers a solid understanding of the complete value chain. Our products and services form the IT technology foundation at leading automotive companies globally. DXC strengthens that portfolio with billions of annual R&D investments. We leverage the capabilities and strategic relationships to help automotive companies drive growth, overcome complexities, differentiate, and achieve organizational fitness.
- BES has more than 25 years of EDI and trading community integration experience; and more than 20 years of experience providing e-commerce-related services to the manufacturing industry, serving clients in the automotive, high technology, and consumer products sectors. In fact, the manufacturing industry accounts for some 25% of our business exchange revenue. Our services are focused on helping manufacturers succeed at making products faster, better, and at a lower cost to remain competitive in their marketplace.

EDI Client: Thomas Built Buses (Daimler Trucks)

EDI Managed Service with DXC Business Exchange Services

Business need

- The existing EDI software and system infrastructure was not meeting business needs, and expensive upgrades became necessary
- TBB went looking for a managed solution for EDI with SAP interface experience
- TBB selected DXC BES based on cost-benefit analysis

DXC solution

- DXC MFT handles all trading partner connections and data transfers using secure protocols, and VAN inter-connections.
- DXC EDI Managed Service manages EDI translation (EDI and flat files), and monitors and tracks each transaction end to end.
- Supplier side:
 - EDI 830 Planning Schedule, 866 Production Sequence, 850 Purchase Order, 860 PO Change, 856 Advance Ship Notice, 810 Invoice
- Aftermarket side:
 - EDI 850 Purchase Order, 856 Ship Notice, 810 Invoice

Client outcome

- With DXC's project team's help, TBB was able to seamlessly transition their trading partner processing to DXC without any disruption to the business
- TBB was able to retire and decommission their aging and expensive in-house EDI system
- TBB realized significant Total Cost of Ownership reductions, and is able to respond quickly to new requests, and changes in business practices
- TBB can now add partners at will, with a well defined process and roles/responsibilities between TBB and DXC

TBB Customer Comment from latest satisfaction survey (1/23/2017): What one thing about Business Exchange Services provides the greatest value to your business? **Speed and Quality of Service**

EDI Client: Global North American Automotive Company

Second largest global automotive manufacturer with operations in over 150+ countries around the world

Business need

- The client needed to process large numbers of file transfers between manufacturing plants, parts suppliers, vendors and dealerships to support their world-wide just-in-time order, fulfillment and delivery cycle. They also required guaranteed and protected integrity, security and delivery of critical financial data

DXC solution

- The client relies on the DXC Service offering to handle their file transfer management needs. DXC provides connectivity between manufacturing plants, parts suppliers, vendors and dealerships to support the worldwide just-in-time order, fulfillment and delivery cycle. The DXC service also handles the guaranteed and protected delivery of critical financial data, maintaining integrity and security through a robust authentication and encryption layer

Client outcome

- By utilizing the managed service offering from DXC, the customer is free from concerns related to on time delivery of critical EDI transmissions or timely set up of new trading partners. The DXC Service desk monitors the environment and handles issues without interrupting the customer from their primary jobs. A dedicated DXC support staff ensures that reliable service levels are maintained and continuous improvement remains a focus

Thank you.
