7. Specific B2B Questions 11

1. Introduction

DXC Technology's (DXC's) Business Exchange Services (BES) provides scalable B2B solutions and services that allow clients to better communicate, connect and exchange data with their trading partners. This suite improves business performance and accelerates growth through platform optimization, integration, process & community management, and visibility service capabilities. BES operates across all industry sectors.

Early access to accurate information significantly accelerates and improves the planning and design phases of each project. To support this, the customer is requested to complete this questionnaire, following the first meeting where an opportunity to utilize our services has been identified.

The questions in this document are primarily of a business nature, however, it is necessary to establish some technical details.

Please include as much detail as possible in your response.

2. Contact Information

Table 1. Client (Company/Organization) Information

Organization Name	
Organization Address	

Table 2. Business Contact

Business Area (e.g. Sales)	
Contact Name	
Job Title / Responsibility	
Contact Email	
Telephone Number	

Table 3. Technical Contact

Contact Name	
Job Title / Responsibility	
Contact Email	
Telephone Number	

Table 4. Organizational Profile

Industry Sector(s)	
Main Business Activity(ies)	
Number of Employees	
Main Geographic Locations	

3. Current Business-to-Business (B2B) Activities

Table 5. Current B2B Activity

Which parts of your organization are currently supported by electronic B2B activities?	
Which of your business processes are supported by electronic B2B activities?	
Are your current electronic business activities technically supported out of one central solution across all functional, regional or divisional units of your organization? If so, please indicate which solution, and indicate whether the solution is operated in-house or by an outside service provider? If not, please specify why and indicate which solutions have been implemented per functional area, region and/or division?	
Which business documents does your B2B activity support?	
Do you currently support any B2B initiatives (e.g. <i>Internet Web site, marketplace, EDI system, e-procurement</i>)?	

4. Future B2B Plans and Strategy

Table 6. B2B Initiatives and Drivers

What are your business drivers for using B2B or introducing new B2B initiatives within your organization? • Business process cost savings • Grow revenue • Grow market share • Explore and expand into new markets • Extend enterprise Integration • Industry mandates • Government mandates • IT organization rationalization • IT processing cost savings • Limitation of your current B2B solution(s) • Other?	
--	--

Please describe any B2B initiatives you have planned, how these are prioritized, and what the main business driver for this initiative is?		
Initiative	Timescale	Business Driver(s) - Priority – Comments

5. Business Documents

Please indicate which Business documents you use (or plan to use) electronically. Add more rows to detail any document types not included in the list.

Please also identify any available Document Flow diagrams or documentation.

Table 7. Document Types

Document Type	Electronically (Y/N)	Planned (Y/N)	Volume of documents per month (specify measure: units, kilocharacters, transactions)	Input /Output Format
Purchase Order				
Delivery Note				
ASN				
Planning Schedule				
Delivery Forecast				
Product Activity Data				
Invoice				
Credit/Debit Note				
Payment Instruction				
General Message				
Product Data Sheet				
Price/Sales Catalogue				
Customs Declaration				
Banking Instruction				
Transport Message				
Acknowledgement				
Message Text				
Healthcare Enrollment				

Premium Payment				
Healthcare Claims				
Healthcare Eligibility				
Healthcare Prior Authorization				
Healthcare Remittance Advices				
Eprescribing				
Subrogation				
Prior Authorization Transfer				
Healthcare Post-Adjudication				
Message Text				
Formulary & Benefits				
Do you have interactive/real-time processing requirements?				
Do you have batch processing requirements?				
Do HIPAA security and privacy requirements apply to the handling of any data? If so please provide some details on types of transactions that require this compliance.				
Do you have contractual obligations for file processing time? If so what are they?				
What type of data archival requirements do you have?				
What type of High Availability and DR capabilities do you require?				

6. Business Partner Community

Table 8. Business Partner Community

Current number of targeted business Partners	
Current number of Electronic Business Partners	
How many additional Business Partners are implemented on a monthly basis?	
Geographic locations of your current and target Electronic Business Partner community	
Please describe how you wish to develop your Electronic Business Partner Community and its expected growth rate.	
Which Business Community Group(s) is your company a member of (if any)?	

7. Specific B2B Questions

Table 9. Volumetrics

Please detail the volumes of data processed through your current B2B systems, providing a breakdown per system & message type/document type. Please include number of messages, transactions and kilocharacters.	
What is the minimum-maximum-average file size?	Minimum: Maximum: Average:
Are there are any processing peak moments (<i>hourly-daily-weekly-monthly-yearly</i>)?	

Table 10. Systems Integration

Is your current B2B system integrated with your ERP or Back Office systems? <i>(Please provide details)</i>	
Do you have any plans the next 6-18 months to refresh your ERP & Back Office systems? <i>(Please provide details)</i>	
Does your current B2B system provide integration between your own internal systems? <i>(Please provide details)</i>	

Table 11. Communications

Please indicate which communication protocols you use with your Business Partners	
FTP / FTPS	
HTTP / HTTPS	
Email	
Internet Web Forms	
VPN	
FTP TCP/IP Internal Closed Network	
OFTP (X.25, ISDN, IP)	
X.25	
X.400	
Modem Dial-Up	
ISDN	
DXC MFT	
VAN's	
Clearinghouses	
AS2	
Fax	
Other (please specify)	

Table 12. Data Formats

How many EDI translations ('mappings') do you support?	
How many new EDI translations ('mappings') do you implement on a monthly basis?	
How many translation/mapping changes do you implement on a monthly basis?	
Are 'external' message implementation guidelines available (i.e. documentation describing the external message formats i.e. EDIFACT)?	
Can you share an example?	
Are 'internal' message implementation guidelines available (i.e. documentation describing the internal mapping specifications)?	
Can you share an example?	
Please indicate which data formats you use and include standard / versions where known	
NCPDP	
XML	
EDIFACT	
ASC X12	
EANCOM	
ODETTE	
VDA	
TRADACOMMS	
ERP API (e.g. SAP IDoc, QAD)	
EAI API (e.g. MQSeries)	

Flat file	
CSV file format	
Unstructured data	
Other (please specify)	

Table 13. B2B Platform

Which B2B platform (hardware/software) system(s) do you use?	
What operating system does this B2B platform run on?	
Is your platform owned/operated by yourselves or is this outsourced to a 3rd party?	
How many FTE resources are supporting your B2B platform?	
Other comments?	

Table 14. Value Added Networks/Clearinghouses

Please indicate which of the following Value Added Networks / Clearinghouses you use	
OpenText/GXS	
Inovis	
Easylink	
IBM Sterling	
DXC MFT	
Dinet / Autolink	
BT EDI*NET	
Tradanet (GXS)	
AT&T	
ENX	
Emdeon	
RelayHealth	
Surescripts	
Other (please specify)	

Table 15. Additional Functional Requirements

Please indicate which of the following additional functionality you require/use?	
Long-Term Archiving	
Additional security (encryption, digital signatures, ...)	
E-invoicing processing according to the EU directive 2001/115/EEC	
CAD-CAM processing	
Multilingual Helpdesk support (specify languages) Do you require 8*5 or 24*7?	
Additional Reporting	
HIPAA Validation	
Other (please specify)
