Questions for Rough Order of
Magnitude (ROM) Cost Estimate

BES Questions for Rough Order of Magnitude (ROM) Cost Estimate

Question		Answer
1	How many discrete EDI systems/platforms are used in the company? Please answer the below for each of the systems.	
2	What EDI software and/or service providers make up the current solution/environment?	
3	Specific versions of software used in the solution. Communications/gateway software as well as translation software, middle ware etc. (incl. specific versions)	
4	Infrastructure arrangement, data-center, locations etc. – any centralized/corporate services?	
5	Any important licensing or 3rd party agreement information (cost, terms, constraints, termination clauses, etc.)?	
6	How many trading partners are ACTIVE and how are they split between customers, suppliers and other (logistics, banks, etc.)? (provide list if available)	
7	Of trading partners, approx. % VAN vs. directly connected vs. web/portal	
8	List of VANs or other 3rd party communications service providers	
9	Most common protocols used to connect (AS2, SFTP, HTTPS, HTTPS-SOAP, etc.) for non-web trading partners?	

BES Questions for ROM (continued)

	Question	Answer
10	How many data translation maps are ACTIVE in the system currently	
11	Types of transactions exchanged (list of transaction type IDs is good source)	
12	What % are simple/clone, medium complexity, high complexity maps? <i>SIMPLE = Simple translation rules, X12 or EDIFACT, no pre/post processing, clone of other map</i> <i>MEDIUM = Simple to medium translation rules, X12 or EDIFACT, no pre/post processing</i> <i>COMPLEX = Simple to complex translation rules, non-EDI formats, may have nested hierarchies, external lookups, and pre/post processing.</i>	
13	Ideally, if we could get samples of each map complexity	
14	What is the monthly average volume of EDI (using “EDI” in its broadest definition to include any electronic structured data exchanged with trading partners) -Total average number of files per month -Total average volume of data (MB) per month (in and out) per month -Total average number of transactions/messages per month	
15	How many people FTE (counting full and partials) are involved in the EDI operation (incl. internal and trading partner support, map and process development, etc.) currently?	
16	Of FTE, what % is on vs. off shore	

BES Questions for ROM (continued)

Question		Answer
17	Support - How many service requests per month?	
18	Support - How many incidents/problems per month?	
19	Support - Current support SLA?	
20	Change Mgmt. - How many new trading partners per quarter?	
21	Change Mgmt. - How many new maps per quarter?	
22	Change Mgmt. - How many map changes per quarter?	
23	Any special processing requirements we should be aware of?	
24	Are you subject to customer score card – compliance requirements for EDI?	
25	Are you subject to Tax/government compliance, like e-Invoicing?	
26	Do you have any special reporting requirements?	

Thank you.
