

INTERNAL ONLY – for Upsell and Cross-sell

App Services / App Modernization / Enterprise Integration Services / BES / SEEBURGER COE

Scope/Overview

- BES SEEBURGER COE offers comprehensive B2B Integration solutions and services based on SEEBURGER Products. As one of the Market leaders in EDI/B2B Software solutions, SEEBURGER has partnered with DXC for more than 15 years, delivering integration solutions through the SEEBURGER COE to clients worldwide as well as to DXC itself.

Value Proposition

- SEEBURGER offer state-of-the art B2B and EDI solutions, widely adopted as a replacement for outdated EDI environments, burdened by legacy complexity.
- BES SEEBURGER COE can guide these modernization journeys, adding experience and scale to deliver highly stable, high-performing-application, successful transitions and efficient services with long-term quality.

Differentiators

- Deep industry partnership with SEEBURGER over 15+ years of being a user and seller of their solutions
- Industry leading level of expertise and experience

Positioning

The case for BES SEEBURGER COE:

- 20+ years EDI/B2B experience, 15+ years SEEBURGER experience on average
- Global presence, cross-industry
- We use and run the solutions we sell also inside DXC
- 15+ years partnership with SEEBURGER; formalized global partnership agreement
- Scale and cost-efficiency through off-shoring where appropriate
- On-premise, public cloud, hybrid solutions
- From fully supported to self-supported as required

Handling Objections

Q. How can BES SEEBURGER COE help migrating all trading partners?

A. With DXC's ability to scale global, cost-efficient staff and SEEBURGER's migration tools, we can handle large migrations efficiently

Q. How do your costs compare to your competitors?

A. We provide industry leading expertise on SEEBURGER solutions, but we also complement this with near- or offshore staff at scale to provide a healthy balance between high quality and cost-efficiency.

Why DXC?

- We are not tied to specific software; we always use best-of-breed.
- We have the latest refreshed technology, updated software, and superlative service delivery.
- Our pricing is not complex.

Conversation Starters

- Cost reduction**—Reduce cost by implementing stable, high-performing integration solutions, with self-service capabilities for partners and business users. Support with cost-efficient offshoring and nearshoring components
- Scalability**—Support growth, change, and technology refresh without disruption, worldwide.

- Accuracy**—Reduce process and transaction failures and eliminate mistakes in dealing with different system interfaces.
- Business risk**—Decreased risk through redundancy with HA and DR solutions
- Partner relationships**—Increase partner satisfaction with fewer errors and better information resulting in more sales and process improvements.
- Compliance**—Increase data and process compliance through automated exceptions handling.

- What improvements could be made if you could **focus on your core business** -- without being burdened with outdated IT infrastructure, fragmented B2B applications, time-consuming error research, and trading partner support and onboarding?
