

Streamline trade, increase efficiency

DXC Business Exchange Services—Consumer Packaged Goods and Retail

Inefficiencies cost time and money. Optimize your processes, increase accuracy, and improve use of staff—to increase sales.

Insights

- Bad item data causes inefficiencies.
- Time and money are wasted.
- Address these issues; DXC Technology can help.

Many consumer-packaged goods (CPG) manufacturers, distributors, wholesalers, brokers, and retailers experience inefficiencies caused by bad item data. The sales force wastes time maintaining item descriptions and attributes and resolving discrepancies with customers. Order management, shipping, and distribution departments struggle with bad orders and returns. Finance is either overstaffed or overworked resolving bad invoices, and bad information makes chargebacks commonplace. This results in inefficiencies that cost the industry between \$50 billion to \$100 billion USD a year.

Beyond these increasing challenges and costs, to keep up you also have to address growing numbers of security and privacy imperatives.

Get the answer

DXC Technology Business Exchange Services offers solutions that optimize processes among manufacturers, wholesalers, retailers, and brokers in the CPG and retail industries. From basic VAN and AS2 connectivity to EDI, XML, and UCCnet, we help you trade efficiently, become UCCnet and retailer compliant, reduce costs, improve supply chain visibility, and increase order and invoice accuracy.

Save money, ensure compliance

- Gain a central “record of truth” for UCCnet- compliant item data
- Reduce transaction errors and chargebacks
- Improve order-cycle time
- Ensure standards and retailer compliance— AS2, XRG, and UCCnet
- Reduce supply chain inventory
- Yield order-management cost savings of up to 30%

Review the features

- Full 100% trading partner connectivity via the Internet—AS2, HTTPS, VAN, VPN, and other methods
- Data translation—EDI, XML, flat file standard, and proprietary formats PC- and web-based EDI enablement
- Media conversion between ASCII and fax/ paper
- Legal document retention extended archiving • Hosted product catalog and UCCnet GLOBAL registry synchronization
- Price/promotion maintenance and rules management for purchase order and invoice reconciliation
- Trading community management

Benefit from a managed model

This proven solution manages the exchange of business transactions among trading partners’ computer

systems within a managed service model. Using this approach, you can focus on core competencies instead of managing the minutiae of the industry's evolving technical and standards issues.

Also benefit from these advantages:

- Low capital investment needed by leveraging DXC Technology infrastructure
- Predictable, straightforward, use-based pricing
- Rapid implementation and migration
- Predictable service levels
- Built-in scalability, fault tolerance, and disaster recovery

Work with a knowledgeable player

DXC Technology, a preferred member of the UCCnet Partners in Sync program, is a solution partner of UCCnet Item Registry and Synchronization Services. Our company has earned UCCnet certification. We participate in ongoing development of EAN/UCC standards, which positions us to anticipate changes.

Use a single, secure resource

Address all your e-commerce needs with DXC Technology Business Exchange Services. Our transaction-related services encompass connectivity, translation, media conversion, and extended archiving. For the CPG industry, we offer industry-specific business process management services—such as a hosted product catalog, UCCnet GLOBAL registry synchronization, price and promotions rules management, retailer eForms, and purchase order and invoice reconciliation.

Also, look to DXC Technology for trading community related services, such as trading partner management, and web- and PC-based supply chain management tools for smaller trading partners.

Gain flexible pricing

Tailored to meet your needs, DXC Technology Business Exchange Services is competitively priced. Use-based pricing consists of a simple fee per transaction with volume discounts. There are no

hidden charges to you or your trading partners. If you prefer, you can also be charged for the service on a subscription or fixed-price basis.

Rely on DXC Technology

The DXC Technology infrastructure provides superior operations reliability. Redundancy at many levels—data center site, Internet backbone, routers, server processing tiers, databases, and applications—ensures seamless scalability, load balancing, and disaster recovery on a global level.

Our renowned DXC Technology operation center monitors, troubleshoots, and solves problems 24x7. In addition, DXC Technology continually tracks performance and makes it visible to you with our unique Service Excellence Dashboard.
